

Enjoy the Silence – Depeche Mode Tribute

The music of Depeche Mode has moved hearts and feet worldwide for the last three decades. Depeche Mode tribute band Enjoy the Silence render the music close to its original sound and is able, just like Depeche Mode, to make a synthesizer sound alive. The shows are a tour de force of the musical highlights of Depeche Mode's career, from the early eighties to today. Songs like Just Can't Get Enough and personal Jesus are performed by a grooving band, and a lead singer who looks and sounds like the real deal.
